Needs and Uses: The Program Executive Office Enterprise Information Systems Climate Survey (PEO EIS) Climate Survey is seeking feedback from its civilian, military, and contractor personnel to assess how they feel about the organization and their work environment. The responses will enable PEO EIS leadership to assess and determine where changes are required. PEO EIS will distribute this Climate Survey using the MilSuite survey feature, which enables PEO EIS to create a custom survey for distribution organization-wide with advanced survey statistics to capture, review, and share the responses. Respondents will access and provide their responses to the collection instrument online. They will receive a link via email that takes them directly to the PEO EIS Climate Survey in MilSuite. The PEO EIS Operations Team will review the survey responses and provide data and subsequent analysis to PEO EIS leadership. The results will enable leadership to communicate areas for improvement, actions they plan to take or have been taken, and if the changes address the area in need of improvement with its personnel. Additionally, since the survey is annual, PEO EIS will be able to review and analyze data year to year to identify trends. This climate survey was previously fielded to only one branch of PEO EIS, but will be expanded to include the entire organization.
